

By - Team - LOGAN

IDEA

- Hospitals/Clinics comparison platform.
- Ratings based on real patient reviews.
- Only for Non-Emergency cases.

MARKET RESEARCH

Total amount spent
on healthcare/year

Of Canada's entire
GDP

Are not satisfied
with the healthcare system

COMPETITORS

Medicare.Gov

- UI/UX is confusing.
- Only compares hospitals/clinics in USA.

COMPETITORS

The Leapfrog Group

- UI/UX is confusing.
- Only compares hospitals/clinics in USA.

NEED FOR OUR APP

- People often get confused when they have to decide which hospital or clinic can provide the best solution to their problems.
- There is no such platform that provides direct information about hospitals or clinics at a single place.
- No other platform is comparing on real patient reviews.

THIS IS IT !

OUR APP

OUR APP

- Hospicheck compares hospitals/clinics based on patient feedback.
- Our web application is an easy solution for users to find the best treatment available.
- Our application lists the best treatments available to the user based on a search term.

FEATURES

Geo-Location

We will take the users geo-location and list the hospitals accordingly.

Comparison

The hospitals with better and more positive user feedback will get sorted above the others.

Advance Search

One stop solution for all. A user enters the search term and gets results sorted accordingly.
